## **Further Details**

Presented to Parliament

by the Secretary of State for the Home Department

by Command of Her Majesty

July 2020

CP 258

43. In the table below we show how someone who has at least 80% or 90% of the relevant salary for their occupation (whether that is the £25,600 threshold or the going rate), and therefore scores 0 or 10 points for salary, could make up the points elsewhere by scoring points for another attribute, for instance, working in a shortage occupation or having a relevant PhD.

**Table 1: Tradeable points**

Non-tradeable points (mandatory) – 50 required				
Offer of a job by an approved sponsor				20
Job at an appropriate skill level				20
English language skills at level B1 (intermediate)				10
Tradeable points (may only score from one entry from each of the two sections below) – 20 required				
Salary <sup>4</sup>			Other	
General salary threshold	Going rate			
Salary of at least £20,480	At least 80% of the going rate for the profession (70% if a new entrant).	0	Education qualification: PhD in a subject relevant to the job	10
Salary of at least £23,040	At least 90% of the going rate for the profession.	10	Education qualification: PhD in a STEM subject relevant to the job	20
Salary of at least £25,600	At least the going rate for the profession.	20	Job in a shortage occupation (as designated by the MAC)	20
Salary of at least £20,480	Listed health/education job <u>and</u> meets the relevant national pay scale	20	Applicant is a new entrant to the labour market (as designated by the MAC)	20

The following case studies further illustrate how tradeable points can be applied.

<sup>4</sup> Employers and applicants must use whichever salary is higher out of the general salary threshold or going rate.

**Case study: General salary threshold is applied**

Freya wants to come to the UK to undertake skilled work and has been offered a job as a lab technician for a salary of £21,000. She meets all the mandatory criteria under the Points-Based System, scoring 50 points.

The going rate for lab technicians is £18,200 and Freya's salary is more than this. However, she does not score 20 points for her salary as it is below the general threshold of £25,600. As Freya's salary offer is £21,000, she does not score any points for her salary. It is still above the minimum of £20,480, so she can still score 20 tradeable points elsewhere to be eligible for a visa.

In this instance Freya does get the 20 extra points by having a relevant STEM PhD in biochemistry.

The table below has been personalised to show how Freya has accumulated the requisite 70 points.

	Characteristic	Points	Total
<b>Mandatory</b>	Offer of a job by an approved sponsor	20	50
	Job at an appropriate skill level	20	
	English language skills at level B1 (intermediate)	10	
<b>Tradeable</b>	Salary of £20,480 - £23,039.99	0	20
	Education qualification: PhD in a STEM subject relevant to the job	20	
<b>Total</b>			<b>70</b>

**Case study: 'Going rate' salary threshold for the profession is applied**

Richard wants to come to the UK to work and has been offered a job as a mechanical engineer for a salary of £26,750. He meets all the mandatory criteria under the Points-Based System, scoring 50 points.

Richard's salary is higher than the £25,600 general salary threshold; however, it is below the £33,400 going rate for mechanical engineers, so he does not score 20 points for his salary. Richard's salary is just above 80% of the going rate for his occupation, therefore while he scores no points from his salary, he is eligible to score 20 tradeable points elsewhere to be eligible for a visa. In this instance Richard scores the 20 extra points by having a job offer in a shortage occupation.

The table below is personalised to show how Richard has accumulated the requisite 70 points.

	Characteristic	Points	Total
<b>Mandatory</b>	Offer of a job by an approved sponsor	20	50
	Job at an appropriate skill level	20	
	English language skills at level B1 (intermediate)	10	
<b>Tradeable</b>	Salary of at least 80% of the going rate	0	
	Job in a shortage occupation (as designated by the MAC)	20	20
<b>Total</b>			70

### Case study: National pay scale is applied

Louis wants to come to the UK to work and has been offered a job as a qualified primary school teacher in Wales for a salary of £24,906. He meets all the mandatory criteria under the Points-Based System, scoring 50 points.

Louis must now score a further 20 points to be eligible for the Skilled Worker route. His salary is below the general threshold of £25,600 but, as primary school teachers are a listed education job and Louis' salary meets the national pay scale in Wales (and is above £20,480), he still scores 20 points for his salary, meeting the total requirement of 70 points.

The table below has been personalised to show how Louis has accumulated the requisite 70 points.

	Characteristic	Points	Total
<b>Mandatory</b>	Offer of a job by an approved sponsor	20	50
	Job at an appropriate skill level	20	
	English language skills at level B1 (intermediate)	10	
<b>Tradeable</b>	Listed health/education job <u>and</u> meets the relevant national pay scale	20	20
<b>Total</b>			70

**Case study: New entrant discount is applied**

Evie is 26 years old and is in the UK, having studied a veterinary science degree at a UK university and begun her career here under the Graduate route. She wants to carry on working in the UK and has been offered a job as a veterinarian with a starting salary of £22,900. She meets all the mandatory criteria under the Points-Based System, scoring 50 points.

Evie must now score a further 20 points to be eligible to switch into the Skilled Worker route. She does not score any points for her salary, but it is above the minimum of £20,480. As Evie is switching from the Graduate route, she scores 20 points as a new entrant to the labour market. Her salary is below the usual minimum 80% of the £32,500 going rate for her chosen profession, but it is higher than the 70% of the going rate required for new entrants.

The table below has been personalised to show how Evie has accumulated the requisite 70 points.

	Characteristic	Points	Total
<b>Mandatory</b>	Offer of a job by an approved sponsor	20	50
	Job at an appropriate skill level	20	
	English language skills at level B1 (intermediate)	10	
<b>Tradeable</b>	Salary of at least £20,480 and at least 70% of the going rate for the profession	0	20
	Applicant is a new entrant to the labour market	20	
<b>Total</b>			70

*Skilled Worker***Who can apply?**

44. Individuals of all nationalities (except British and Irish) who have a confirmed job offer, and whose employment will be sponsored by a UK employer who is Home Office licensed, to work in specified occupations (at RQF3 or equivalent and above).

**Table 2: Skilled Worker conditions and requirements**

Requirements		Conditions and restrictions	
English language	Yes	Capped	No
Application fee	Yes	Switching – routes (in country)	Yes
Immigration Skills Charge	Yes	Route to settlement	Yes
Immigration Health Surcharge (subject to specific exemptions)	Yes	Dependants	Yes
Biometrics	Yes	Access to funds	No
Maintenance*	Yes	Supplementary work	Yes
<p>* Applicants are exempt from the requirement if they have a fully 'A-rated' sponsor who can provide the maintenance cost if they need it. Sponsors must confirm this on the Certificate of Sponsorship. An A-rating is awarded when employers are first granted a sponsor licence on the basis that they have systems in place to be able to meet their sponsor duties. Employers will not be granted a licence if they are not able to achieve an A-rating.</p>			
Additional			
Sponsorship - confirmed job offer with a licensed sponsor			
Salary thresholds – a salary at or above the general threshold £25,600 or the going rate, whichever is higher. May be reduced through tradeable points or being a new entrant to the labour market.

## Further information

### The Going Rate

45. These rates are based on the 25<sup>th</sup> percentile of earnings in the UK data drawn from the Annual Survey of Hours and Earnings (ASHE) which is updated annually by the Office for National Statistics, normally at the end of October. The current rates for each profession can be found in Annex E. These rates (and any discounts to them from scoring tradeable points elsewhere) do not absolve sponsors of their obligations under

the National Minimum Wage Regulations, even if the stated going rate is lower. Skilled workers are entitled to the same minimum rates as other UK workers.

46. It is worth noting that the salary thresholds for some occupations may change between now and the new route being launched. The Rules and guidance will be based on the latest available appropriate data at the time they are published.

### **Public sector occupations**

47. On the advice of the MAC, national pay scales will be used to determine the going rate for 24 health / education public service occupations. The list can be found in table 28 (Annex E). The £25,600 general salary threshold will not be applied for this group; however, the minimum salary floor will be £20,480. This group will not have access to tradeable points as they will not need other points to offset the £25,600 threshold. We do not consider it appropriate for sponsors to be offering salaries at less than the national pay scales for these occupations.
48. There is one temporary exception to the minimum salary floor for nurses and midwives who can be paid a lower salary for up to the first eight months in the UK, before they achieve their full UK registration as a nurse or midwife. After eight months, the nurse or midwife would need to be paid according to the national pay scales for a newly registered nurse or midwife.

### **Pro-rating salaries for part time workers**

49. The going rate ensures fair pay compared with resident workers and aims to prevent migrant workers being used as a source of cheap labour. As under the existing system, going rates for individual occupations can be pro-rated depending on the applicant's working pattern, as long as the total applicable general salary threshold (£25,600, £23,040 or £20,480) is met. The general threshold is a measure of the economic contribution an applicant will make to the UK. It applies regardless of the number of hours worked and will not be pro-rated.

### **Eligibility for PhD points**

50. Applicants will only be able to score points for having a PhD relevant to the job. Sponsors will need to decide and be able to justify whether an applicant's PhD is relevant to the job they are sponsoring them for and to advise whether it is a STEM PhD. We will withhold points if the sponsor's explanation is clearly not credible. Points can only be awarded for academic PhDs.
51. In addition, applicants will only be able to score points for having a PhD when working in certain occupations. A list of occupations which will, and will not, be able to claim PhD points will be kept under review. For the initial launch of the route, the list will cover:

- All occupations in the top skill level of the Standard Occupational Classification (SOC) code system.<sup>5</sup>
- A small number of additional STEM jobs, such as lab technicians, which do not appear in the top skill level, but which involve research or technical knowledge and where we believe a relevant PhD would be an advantage.

52. The relevant occupations are listed in Annex B.

### **Points requirements in further applications by individuals**

53. Those who enter the Skilled Worker route will need to make a new application if they (a) change employer; (b) change jobs (to another SOC code); or (c) need to extend their stay. Existing Tier 2 (General) migrants who need to do any of the above will also need to make such an application under the Skilled Worker route once the Tier 2 (General) route closes. The points table will apply to these further applications.
54. If the migrant has changed their employer and/or their job, there will be a reassessment of whether their new post meets the required skill and salary level. PAYE records for all skilled workers will be regularly checked to confirm they are being paid the correct salary.
55. Applicants who scored points for English language at the required level in an earlier application will score those points automatically in a subsequent application. They will not need to submit their qualification certificates again, but if their job has changed, we will assess whether their qualification is relevant to their new job.

### **New entrants**

56. New entrants to the UK labour market are currently entitled to come to the UK on a lower salary than their more experienced counterparts are required to earn. They currently benefit from this reduced salary threshold for three years. Migrants will be defined as new entrants under the Points-Based System if they meet one of the following requirements:
- a) They are switching from the Student or Graduate route to the Skilled Worker route;
  - b) They are under the age of 26 on the date of their application; or
  - c) They are working towards recognised professional qualifications or moving directly into postdoctoral positions.
57. Requirement c) is an addition to the existing new entrant requirements list and will be introduced for the Points-Based System on the recommendation of the MAC. While

---

<sup>5</sup> According to the official guidance published by the Office for National Statistics, the top skill level comprises “what are termed ‘professional’ occupations and high-level managerial positions in corporate enterprises or national/local government. Occupations at this level normally require a degree or equivalent period of relevant work experience”.

postdoctoral positions are easily identified, we will use the following tests to identify those “working towards recognised professional qualifications”:

- The salary reduction for professional qualifications should only be available where the job offer is in a regulated profession or protected job title.
- “Working towards professional qualifications” should mean working towards full registration or chartered status with the relevant professional body.
- This definition will also include those who have switched from the Graduate route into the Skilled Worker route.

58. We will impose a floor on the reduced salary threshold for new entrants. The discount to the going rate for new entrants will be 30%, but the floor will mean that no migrant can come if they earn less than £20,480. We will apply a 20% reduction to the general threshold, rather than a 30% reduction, as we do not consider skilled workers should be sponsored at a salary of less than £20,480. Applying a 30% reduction to the general threshold would mean, in many cases, the applicant would be paid less than the National Living Wage.

### Highly skilled workers

59. Beyond January 2021 and in line with the recommendations from the MAC, we will create a broader unsponsored route within the Points-Based System to run alongside the employer-led system. This will allow a smaller number of the most highly skilled workers to come to the UK without a job offer. This route will not open on 1 January 2021 and we are exploring proposals for this additional route with stakeholders over the coming year. Our starting point is that this route would be capped and would be carefully monitored during the implementation phase. Further details will be shared in due course.

### Skilled Work: Health and Care Visa

60. The Government welcomes the vital contributions which doctors, nurses and other health professionals from overseas make to the National Health Service (NHS) and wider Health and Care Sector. The Health and Care Visa is part of the Skilled Worker route. It will ensure individuals working in eligible health occupations with a job offer from the NHS, social care sector or employers and organisations which provide services to the NHS, who have good working English, are incentivised to come to the UK.
61. There will be fast-track entry, with reduced application fees and dedicated support regarding the application process, for eligible individuals to come to the UK with their families. Those who are eligible to apply for the Health and Care Visa, and their dependents, will also be exempt from having to pay the Immigration Health Surcharge. Frontline workers in the health and social care sector who are not eligible for the new Health and Care Visa will pay the Immigration Health Surcharge, but will benefit from a reimbursement scheme. Further detail will follow in due course.

## Who can apply?

62. Individuals of all nationalities who have a confirmed job offer, in one of the defined health professions, for a skilled role within the NHS, the social care sector or for NHS commissioned service providers.
63. The full list of professions, defined by Standard Occupational Classification codes, which would currently qualify for the Health and Care Visa can be found in Annex D. This list reflects the current skills threshold. The list of professions will be updated in line with the launch of the new Skilled Worker route and the expanded skills threshold later this year.
64. Although eligible applicants will benefit from reduced fees and an exemption from the Immigration Health Surcharge, both of which will extend to immediate family members, the main applicant must also meet requirements of the Skilled Worker route, including the relevant skill and salary thresholds.

# Coming to study

## Student Route

78. We have a world-leading education sector and will continue to welcome talented and high potential students to our universities, further education and English language colleges, and independent schools. There will be no limit on the number of international students who can come to the UK to study, and we will seek to increase the number of international students in higher education as set out in the International Education Strategy published in March 2019.
79. We also want to ensure that we retain the brightest and the best students to continue to contribute to the UK post-study, which is why we are launching the Graduate route in Summer 2021 to allow those who have completed a degree at a UK Higher Education Provider, that has a track record of compliance, to stay in the UK for two years (three years for PhD graduates) and work at any skill level, and to switch into work routes if they find a suitable job.
80. The new Points-Based Student route will build on the current Tier 4 system, which is working well. The core tenets of the Tier 4 route will remain: sponsorship at a licensed provider, demonstration of English language ability and the ability of the student to support themselves in the UK.
81. However, the route will be improved, making it more streamlined for sponsoring institutions and their students, creating clearer pathways for students, and ensuring we remain competitive in a changing global market, particularly since the pace of change has been accelerated by the Covid-19 pandemic.
82. Students will require a total of 70 points to be granted leave. Points are non-tradeable and will be awarded for meeting the requirements of the route as set out in the table below.

**Table 6: Student route points**

Points type	Relevant requirements to be met	Number of points
Study	<ul style="list-style-type: none"> <li>• Confirmation of Acceptance for Studies requirement</li> <li>• Course requirement</li> <li>• Approved Qualification requirement</li> <li>• Level of Study requirement</li> <li>• Place of Study requirement</li> </ul>	50
Financial	Financial requirement	10
English language	English language requirement	10

83. Child Students will require a total of 70 points to be granted leave. Points are non-tradeable and will be awarded for meeting the requirements of the route as set out in the table below.

**Table 7: Child Student route points**

Points type	Relevant requirements to be met	Number of points
Study	<ul style="list-style-type: none"> <li>• Confirmation of Acceptance for Studies requirement</li> <li>• Course requirement</li> <li>• Study at an independent school</li> <li>• Aged between 4 and 17 when applying</li> <li>• Parental consent</li> </ul>	50
Financial	Financial requirement (including any additional funds for care arrangements)	20

84. We will be extending the period of time in which a student can apply for permission to come to the UK before the start of their course, from three to six months. We will also be removing the study time limit for students studying at a postgraduate level, although students will still be expected to be progressing academically in their studies when making a further application in the UK. Students who meet eligibility requirements will be able to make an in-country application for further leave regardless of their sponsor or level of study.

85. We recognise that students who have been studying in the UK after being granted leave to enter as a student have already demonstrated an ability to support themselves and so we will not routinely request them to submit documentary evidence of funds when making further applications to remain in the UK. We will also remove the requirement for students who are on a recognised Foundation Programme as a doctor or dentist in training, or who are employed as a Student Union Sabbatical Officer to demonstrate funds.
86. Higher education providers with a track record of compliance will be able to make an offer of study to students at degree level and above and carry out their own assessment of those students' academic ability. We will not routinely ask students to provide academic qualifications with an application when their sponsor has made this assessment.
87. Applicants who are citizens of certain countries considered to be low risk will benefit from reduced documentary requirements and EU countries will be added to this list. This list will be kept under regular review.
88. Sponsors will be required to monitor the academic engagement of their students, and they will need to keep records of a student's engagement. This requirement will replace the current attendance monitoring duty for higher education providers. Sponsors who are a Higher Education Provider with track record will be able to self-assess academic and English language ability. Sponsors will need to record details of how any self-assessment of English language was made when offering a place of study to a student.
89. The current Tier 4 Pilot Scheme will close as the new Student route opens. The reduced documentary requirements and extended post-study leave period of the Pilot Scheme are being improved upon by the launch of the Graduate route in 2021 and our changes to maintenance and academic requirements.
90. There will continue to be separate child and adult Student routes, and those sponsoring students will be required to have regard to the safeguarding of international students under 18 studying at their institution. In time, and following the launch of a new sponsorship system, we will consider diversifying further by splitting the adult route into separate Higher Education and Further Education routes to accentuate the pathways.

#### *Who can apply?*

91. Students with an unconditional offer from a sponsoring institution, who can demonstrate they genuinely intend to study and can meet all the relevant requirements of the route.

<b>Additional</b>			
Able to bring dependants if studying at postgraduate level for at least nine months at a Higher Education Provider (HEP) with a track record of compliance, or if government sponsored to study a course longer than six months.			
<p>Applicants must:</p> <ul style="list-style-type: none"> <li>• be aged 16 years or over and studying at GCSE level or above;</li> <li>• have parental consent if aged under 18;</li> <li>• be sponsored and have valid Confirmation of Acceptance for Studies (CAS);</li> <li>• meet academic ability, English language and maintenance requirements (different means of assessment and evidential requirements dependent on nationality, course level and sponsor type);</li> <li>• be a genuine student (applicants may have a credibility interview);</li> <li>• meet academic progression (if applying in the UK) and time limit (no more than two years below degree level or five years below postgraduate level) requirements;</li> <li>• obtain Academic Technology Approval Scheme (ATAS) clearance if studying relevant course (unless an EU citizen).</li> </ul>			
No switching of sponsoring institution is allowed without making a new application.			
Students can apply for further leave as a Student or switch into other routes in line with the wider approach to switching when applying for leave inside the UK. This will include the ability to switch into work routes if they are able to meet the requirements.			
Whether supplementary work is allowed depends on the level of study and sponsoring institution. Separate restrictions apply regarding what type of employment is permitted. For example, students are not allowed to be employed as a professional sports person, a			

doctor or dentist in training or as an entertainer. Additionally, they cannot be self-employed or engage in business activity.
Students can generally only study at their sponsoring institution on the course for which the CAS was assigned.
Generally given a four-month 'wrap up' period post-study (varies with length of course).

**Additional information**

## 92. Sponsors:

- Are responsible for any international students they offer study to under the Child Student or Student route throughout the period of sponsorship;

- Are only able to sponsor if they are a Higher Education Provider, publicly funded college, independent school, private Further Education provider or overseas Higher Education Institution. State-funded schools (with the exception of voluntary grammar schools in Northern Ireland), including state-funded boarding schools, are not permitted to sponsor international students;
- Must maintain Educational Oversight and pass yearly Basic Compliance Assessment. Sponsors which recruit children must meet National Minimum Standards for child safeguarding;
- Must ensure Child Students and Students are engaging academically;
- Must report relevant changes to the institution and changes of sponsored Child Students' and Students' circumstances;
- Are subject to sanctions for non-compliance.

## Graduate Route

93. The Graduate route will be launched in summer 2021 to provide international students the opportunity to stay in the UK to work or look for work after they graduate. Undergraduate and master's degree students will be able to stay for two years under the route, whilst PhD students will be able to stay for three years. Graduates will be able to switch into other routes in line with the wider approach to switching when applying for leave inside the UK. This will include the ability to switch into work routes if they are able to meet the requirements. The Graduate route will also increase the attractiveness of the UK's offer to international students, ensuring we remain internationally competitive and assist in our ambition to increase the number of international students in higher education as set out in the International Education Strategy published in March 2019.
94. It will be an unsponsored route. All successful applicants will be granted a one-time non-extendable leave period of two years if graduating at undergraduate or masters level, or three years if graduating with a PhD, on this route and will be able to work, or look for work, at any skill level during this period. The route will also be Points-Based, with the full number of points being awarded for the successful completion of a degree from a UK Higher Education Provider with a track record of compliance.
95. The current Doctorate Extension Scheme (DES), open to international students who have completed a PhD in the UK and allowing them to remain and work here for 12 months after completing their studies, will be closed at the point the new Graduate Route is introduced. The Graduate route significantly improves on the offer of the DES, providing an additional two years and a more streamlined pathway for those who have completed their PhD than the current route.

### Who can apply?

96. The Graduate route will be open to international students, who have valid leave as a Tier 4 (General) Student or as a Student at the time of application and who have successfully completed a degree at undergraduate level or above at a UK Higher Education Provider with a track record of compliance during that grant of leave.
97. Applicants must have completed the entirety of their degree in the UK except for permitted study abroad programmes or when distance learning has been necessary due to Covid-19.
98. The route will not have a maintenance requirement and applicants will not need to demonstrate English language ability as they will already have proved English language ability by successfully completing a degree at a UK university. Applicants will need to pay the Immigration Health Surcharge at the usual rate for the Points-Based System's routes. This route will not have recourse to public funds.

**Table 10: Graduate route conditions and requirements**

Requirements		Conditions and restrictions	
English language	No	Capped	No
Application fee	Yes	Switching – routes (in country)	Yes
Immigration Skills Charge	No	Route to settlement	No

<b>Additional</b>			
<p>* Graduates whose dependants are already with them in the UK will be allowed to continue sponsoring family members who make an application for further leave at the same time.</p>			
<p>Applicants must:</p> <ul style="list-style-type: none"> <li>• pay the appropriate fee and full Immigration Health Surcharge;</li> <li>• have valid and extant leave as a student at the point of application;</li> <li>• be sponsored by a UK Higher Education Provider (HEP) with a track record of compliance as a student at the time of application;</li> <li>• have successfully completed a degree at undergraduate level (RQF 6) or above, and the course must have been the one for which their latest Confirmation of Acceptance for Studies (CAS) was assigned. The sponsoring HEP must confirm the applicant meets this requirement;</li> <li>• have undertaken all study in the UK (those who complete part of their course overseas as part of a study abroad programme, or have studied part of the course outside of the UK as a result of disruption caused by Covid-19 will also be permitted to apply);</li> <li>• not have previously been granted leave under the Graduate route;</li> <li>• have permission to remain in the UK under the Graduate route from their sponsoring body if they have been studying on a government scholarship;</li> <li>• meet minimum suitability requirements including passing security, identity and criminality checks;</li> <li>• obtain Academic Technology Approval Scheme (ATAS) clearance where applicable, if intending to undertake supplementary study.</li> </ul>			

Supplementary study is allowed, but not at a Student route sponsor.

Separate restrictions will apply regarding what type of employment is permitted. Graduates on this route will continue to be restricted from being employed as a professional sportsperson or as a doctor or dentist in training.

\*Only for Visa Nationals. Further information on different visit visa fees can be found on [gov.uk](https://www.gov.uk).

Fees for sponsorship (licences and certificates) will continue to apply in the same way as they do now. Fees for a sponsor licence depends on size of company and the route they apply under. For example, under the Skilled Worker route, for small and charitable organisations the fee is £536; for medium or large business the fee is £1,476. Further information can be found on [gov.uk](https://www.gov.uk).

Further details of fees for the Health and Care Visa, Graduate Route and Sporting routes will be available in due course. Please check [gov.uk](https://www.gov.uk) for latest fees.

# Annex B – Occupations and PhD points

## Occupation codes

Jobs in the Skilled Worker route are grouped into occupation codes. Employers wishing to sponsor a Skilled Worker will need to select the occupation code which most accurately reflects the job they are offering. It is the duties and responsibilities of the job, rather than the exact job title, which are most important when making this match.

These occupation codes are taken from the SOC 2010 system, developed by the Office for National Statistics (ONS). The system is designed to cover all types of paid jobs in the UK economy. In the Skilled Worker route, we use the 4-digit SOC codes in SOC 2010. We will consider moving towards the newer SOC 2020 system when more data for this system become available.

If a sponsor is unsure which occupation code a job falls in, they should use the ONS's [occupation coding tool](#). This allows them to search by job title, providing the most likely options.

Once the tool has identified possible occupation codes, sponsors should read the descriptions for these to identify the correct SOC code for the job they are offering. These can be found in the ONS's detailed guides:

[Volume 1](#) describes the typical job tasks and common job titles in each occupation code, helping to match job titles and duties with the relevant code.

[Volume 2](#) is an alphabetical index of job titles, as an alternative to the coding tool to help find the relevant occupation code for a particular job title.

Having identified the most relevant occupation code, the sponsor must check whether it is eligible under the Skilled Worker route. If the occupation code is listed in Table 27 or 28 of this document, it is eligible. If it is listed in Table 31, it is not eligible. We will not distinguish between types of jobs within an individual occupation code – if the occupation code is included in Table 27 or 28, all jobs in that code are eligible.

Sponsors should, however, take care to choose the correct code as some closely related jobs have more than one occupation code. For example, chefs (code 5434) may be sponsored as Skilled Workers, but cooks (code 5435) cannot. If in doubt, sponsors should refer to the ONS sources above.

## Eligibility for PhD points

For the initial launch of the Skilled Worker route this is the list of occupations which will be able to claim PhD points. It will be kept under review.

## Occupations which are not eligible for the Skilled Worker route

These occupations cannot be sponsored under the Skilled Worker route for various reasons, including:

- Other, more appropriate immigration routes are available (for example, clergy and sport players).
- Jobs cannot be held by anyone who is subject to immigration control in the UK (for example, elected officers and officers in armed forces).
- The jobs do not meet the skills threshold (for example, security guards and waiters).
